Package Details:

Camera: Sony HVR-HD1000U w/extended warranty SPSCAM10RSEW3

The HVR-HD1000U Digital High Definition HDV camcorder features a shoulder mount design and matte black color, designed to meet the growing demand of HDV users for greater mobility and professional appearance. With premium design characteristics and high-definition 1080i recording capability, . A built-in down-converter creates DV material, perfect for standard DVD productions. Plus, a special still photo mode is ideal for producing DVD cases and making wedding photo albums. The HVR-HD1000U camcorder can adapt to a wide range of shooting situations and features a Carl Zeiss Vario-Sonnar T* lens with 10x optical zoom, similar to that found on higher end professional HDV camcorders. The T* lens coating suppresses unwanted reflections and faithfully reproduces colors for professional-looking results. The "Smooth Slow Rec" function of the HVR-HD1000U camcorder allows users to perform slow-motion playback by capturing images at four times faster than the normal field rate. The Super SteadyShot™ (optional) feature of the HVR-HD1000U camcorder utilizes an image stabilization system using an active optical lens method that functions without any deterioration in image quality. Additionally, the Super NightShot function of the HVR-HD1000U camcorder allows the videographer to record objects in zero lux light levels for night-time monitoring and surveillance.

Supplied Accessories:

Carl Zeiss Vario-Sonnar T* lens with 10x optical zoom
NP-F570 rechargeable battery pack
AC adaptor and power cord
A/V connecting cable
Eye cup
Lens hood

Shotgun Microphone and wind screen
CD-ROM manual and operating guide.

Feature rich and affordably priced, the HVR-HD1000U High Definition shoulder mount HDV camcorder brings affordable HD capabilities to a broader range of pro shooters. Includes a 3 Year Extended Warranty. EW extends the included standard 1 year limited product warranty for an additional 2 years from date of product purchase, for a total term of 3 years of coverage.

Media: Sony PHDV64DM (package of 10)

DigitalMaster tape is designed for any mini-DV or DVCAM camcorders or VTRs. It's the only professional videotape with not one, but two 100% active magnetic layers for 90% fewer errors than consumer DV tape. Because video error correction is so good, errors are sneaky. Even as the errors accumulate, you'll think you're fine. Your first sign of trouble can be a dropout that can break up the image on a one of a kind take. So why risk it all— When it comes to your creative vision, demand DigitalMaster tape.

Tripod: 501HDV Pro Video Head + 055XB Tripod + MBAG80

The 501HDV,055XBK is a complete kit consisting of the Manfrotto 055XB Classic Tripod, the 501HDV Pro Video Head and the MBAG80 Tripod Bag. The 055XB Classic Tripod is one of the most versatile and popular tripods in the Manfrotto range. This tripod is lightweight and portable enough to take in the field, yet strong enough for a medium format camera, small view cameras, spotting scope and the latest generation of digital video cameras.

Tripod Plate: Sony VCT-U14

Quick-release tripod adaptor for BI portable cameras, design based on VCT-14, adjustable camera position with screws.

Case: Portabrace CTC-1 Traveler Camera Case

The Traveler Camera Case series has 1" thick foam reinforced by plastic on the front and back sides. The bottom has no sag, hollow core base with foam padding and a foam block to help position the camera. A new non-slip bottom layer wipes clean easily and provides extra water proof protection. The armored plastic view finder protector is a typically innovative and attractive Porta-Brace® solution. The NEW zipper facing extends over the zipper to keep rain, and debris from entering. Mesh pockets, foam padded pockets (6 in all) help you organize and protect, batteries, tape stock, cable, rain cover and filters. A comfortable suede leather shoulder strap and white balance card are included.

Wireless Mic: Sony UWP-V1-3032 Lav Mic, Bodypack TX and Portable RX Wireless System

UWP Series UHF synthesized wireless microphone system. Package includes a lavalier microphone, bodypack transmitter and portable diversity tuner. Mounting adapter for camcorder included. Channels 30 to 33. The UWP-V1 includes extremely robust metal construction, mic/line input selection on the bodypack transmitter, a miniature metal body omni-directional microphone and plus the receiver includes a convenient auto channel scanning function allowing automatic search for unoccupied channels.

Lighting: Lowel LC-94LBZ Rifa-Lite EX 44 Tungsten Light Kit

60 second setup and beautiful soft output from this small single light kit. Perfect for quick 1 light close-up interviews or small tabletop sets. One 250w Rifa 44, plus Uni TO Stand and expandable shoulder carried Tube Case, or soft case option. Supplied with lamp. All Rifa's have been updated to the new Rifa eXchange System, with expanded abilities thru quick exchange accessory lamp heads.

Deck: Sony MVRM15AU Digital HD Videocassette Recorder

The HDV HVR-M15AU, digital HD videocassette recorder, is the enhanced successor model to the HVR-M15U. This new VTR features HDV native progressive format capability, providing a stunning 1080p image at 24, 25 or 30 frames per second. It is compatible with standard and mini cassettes, providing extended recording times up to 276 minutes. The HVR-M15AU is optimized for use with nonlinear editing systems due to its highly compact size and ease of operation.
